ashish28saxena@gmail.com

CAREER OBJECTIVE

Accomplished **Senior full-stack developer** with a comprehensive skill set spanning various cutting-edge technologies, encompassing both **front-end and back-end frameworks, databases, and cloud platforms;** leveraging nearly **8 years of experience** is targeting career advancing assignments as **Fullstack & Javascript Developer** in **IT Industry** preferably in **Delhi NCR, Remote, Bengaluru, Pune & Mumbai**

CORE COMPETENCIES

- **Full-Stack Development**
- **JavaScript Frameworks (e.g., Vue, Node Js, React, Angular,)**
- **PHP Development**
- **Front-End Development**
- **Back-End Development**
- **Web Application Development**
- **Agile Methodologies**
- **RESTful APIs**
- **Database Design and Optimization**
- **Cloud Technologies (e.g., AWS, Azure)**
- **UI/UX Design Principles**
- **Testing and Debugging**
- **Scalability and Performance Optimization**
- **Version Control Systems (e.g., Git)**
- **DevOps and CI/CD**
- **Problem Solving and Troubleshooting**

PROFILE SUMMARY

- Demonstrated **exceptional proficiency in JavaScript development,** harnessing the power of modern frameworks like **Vue, Node Js., React or Angular,Typescript** to create dynamic and immersive user interfaces
- Possessing a profound **understanding of software architecture and design patterns,** consistently **architecting scalable and maintainable applications** that stand the test of time
- Extensive **expertise in full-stack web development,** adeptly crafting captivating user interfaces, implementing robust back-end functionalities, and seamlessly integrating with databases (**My SQL, Mongo DB & NO SQL) and APIs (Rest API)**
- Proven leadership capabilities, adeptly **guiding and mentoring development teams,** fostering a culture of technical excellence, and driving the adoption of best practices to ensure the delivery of top-notch software solutions
- Deep-rooted familiarity with **agile methodologies and iterative development processes,** employing a value-driven approach to deliver results promptly and exceed stakeholder expectations
- Exceptional problem-solving acumen, skillfully **navigating intricate technical challenges,** and swiftly resolving complex issues to maintain optimal system performance
- Strong grounding in **software testing and quality assurance principles**, championing the authoring of clean and thoroughly tested code for seamless application functionality
- Proficient in **DevOps practices,** embracing continuous integration and deployment techniques to streamline development workflows and achieve efficient software delivery
- Outstanding communication and collaboration prowess, **fostering productive cross-functional partnerships and fostering a harmonious team environment**
- Successfully led the **development and deployment of a complex e-commerce platform**, resulting in an increase in online sales and improvement in website performance
- **Implemented a scalable microservices architecture for a SaaS application,** reducing server costs and enabling seamless managing of increasing user traffic
- **Optimized database queries and implemented caching strategies,** resulting in a significant reduction in page load times and significantly improving overall system responsiveness
- Collaborated with cross-functional teams to **deliver a mobile-responsive web application, leading to an increase in user engagement** and positive customer feedback
- **Introduced automated testing processes, increasing test coverage** and **reducing production bugs,** resulting in enhanced software quality and faster release cycles

WORK EXPERIENCE

SR. FULLSTACK DEVELOPER | MaR '24 – PRESENT
REDIAN SOFTWARE
ROLES & RESPONSIBILITIES:

- Developing and maintaining scalable full-stack web applications, utilizing a wide range of technologies including front-end frameworks, back-end programming languages, and databases
- Collaborating with cross-functional teams to gather requirements, design user interfaces, and implement robust and user-friendly features, ensuring a seamless and intuitive user experience
- Writing clean and efficient code, conducting comprehensive testing, and debugging applications to deliver high-quality software, meeting project deadlines and exceeding client expectations
- Resolving complex technical issues by applying strong problem-solving skills, optimizing application performance, and ensuring smooth functionality across different platforms and devices

SR. PRODUCT ENGINEER | FEB'23 – SEPT 2023
PEOPLEONE TECHNOLOGY PRIVATE LIMITED. | CHENNAI
ROLES & RESPONSIBILITIES:

- Developing and maintaining scalable full-stack web applications, utilizing a wide range of technologies including front-end frameworks, back-end programming languages, and

TECHNICAL SKILLS

- **Vue.js**
- **Node.Js**
- **JavaScript**
- **JQuery**
- **PHP**
- **MySQL**
- **NO SQL**
- **Mongo DB**
- **Nuxt.js**
- **Next.js**
- **HTML / XHTML**
- **Prototype**
- **CSS**
- **Unix/Linux**
- **Apache Web Server**
- **Send mail**

EDUCATION & CREDENTIALS

- **B.Tech.** from UPTU | Uttar Pradesh | 2013

SOFT SKILLS

- **Self-Driven**
- **Communication**
- **Time Management**
- **Analytical**
- **Flexible**
- **Works well under Pressure**

PERSONAL DETAILS

DATE OF BIRTH: 17th November 1990

LANGUAGES KNOWN: English & Hindi

ADDRESS: Noida Extension, 201306, Delhi NCR

databases

- Collaborating with cross-functional teams to gather requirements, design user interfaces, and implement robust and user-friendly features, ensuring a seamless and intuitive user experience
- Writing clean and efficient code, conducting comprehensive testing, and debugging applications to deliver high-quality software, meeting project deadlines and exceeding client expectations
- Resolving complex technical issues by applying strong problem-solving skills, optimizing application performance, and ensuring smooth functionality across different platforms and devices

FINOUX SOLUTION PVT. LTD. | MUMBAI
SR. FULLSTACK DEVELOPER | SEPT'21 – FEB '2023
ROLES & RESPONSIBILITIES:

- Led the development and implementation of complex full-stack web applications, providing technical guidance and mentorship to junior developers, ensuring adherence to best practices and high-quality code standards
- Collaborated with stakeholders to define project requirements, architected scalable solutions, and delivered innovative features, leveraging expertise in front-end and back-end technologies
- Conducted code reviews and implemented code refactoring strategies to optimize performance, maintainability, and scalability of existing applications, ensuring efficient and sustainable software development
- Implemented security measures and best practices to safeguard applications against potential vulnerabilities, proactively identified and addressed potential risks, and ensured data privacy and integrity

PHP DEVELOPER | JUN'20- AUG'21
Novoinvent Software Pvt Ltd | Noida
ROLES & RESPONSIBILITIES:

- Developed and maintained high-quality PHP-based web applications, adhering to coding standards and best practices.
- Collaborated with cross-functional teams to gather requirements, design solutions, and implement new features and functionalities.
- Implemented efficient database structures and optimized queries for improved performance and scalability.
- Conducted thorough testing and debugging to identify and resolve software defects, ensuring smooth and error-free application functionality.

PHP DEVELOPER | JUN'19- JUN'20
SHIPROCKET PVT LTD | NEW DELHI
ROLES & RESPONSIBILITIES:

- Developed and maintained high-quality PHP-based web applications, adhering to coding standards and best practices.
- Collaborated with cross-functional teams to gather requirements, design solutions, and implement new features and functionalities.
- Implemented efficient database structures and optimized queries for improved performance and scalability.
- Conducted thorough testing and debugging to identify and resolve software defects, ensuring smooth and error-free application functionality.

SR.PHP DEVELOPER | MAY'14– JUN'19
WEB SMARTZZ SOFTWARE SOLUTION | CHANDIGARH

ROLES & RESPONSIBILITIES:

- Led the development and implementation of complex PHP applications, leveraging extensive experience in PHP frameworks and technologies to deliver robust and scalable solutions
- Mentored and provided technical guidance to junior developers, conducting code reviews and ensuring adherence to coding standards, best practices, and industry guidelines
- Collaborated with cross-functional teams to gather and analyze requirements, design efficient database structures, and develop secure and optimized back-end solutions
- Optimized performance and scalability of PHP applications by conducting thorough testing, identifying bottlenecks, and implementing performance tuning techniques, resulting in enhanced user experience and increased system efficiency
- Resolved complex technical issues and provided timely support, debugging and troubleshooting PHP code, ensuring smooth functionality and minimizing downtime

PLEASE REFER TO ANNEXURE FOR PROJECT DETAILS

ANNEXURE

PROJECTS

PROJECT-1: HTTPS://EXPERTUSUNIVERSITY.EXPHOSTED.COM/ | EXPERTUSONE PVT. LTD.
TECHNOLOGY USED: NODE. JS, HTML, JAVASCRIPT, CSS, Nuxt.js, MY SQL, API
TEAM SIZE: 6
ROLE: SR. DEVELOPER
DESCRIPTION: Managed a progressive learning project encompassing diverse login functionalities. Enabled company users to upload categorized learning video content, which was subsequently displayed based on user-selected packages. Facilitated user purchases tailored to individual requirements, enhancing the overall learning experience.

PROJECT-2: HTTPS://EXPERTUSUNIVERSITY.EXPHOSTED.COM/| EXPERTUSONE PVT. LTD.
TECHNOLOGY USED: React, API, HTML, CSS, Javascript, MYSQL, JQUERY,
TEAM SIZE: 6
ROLE: SR. DEVELOPER
CMS: React
DESCRIPTION: Executed a dynamic learning project featuring distinct user logins. Enabled company users to upload educational video content categorized by topic. Implemented a subscription-based model where users could access specific content packages aligned with their learning requirements. Facilitated seamless user purchases based on individual needs, enhancing the overall learning experience.

PROJECT-3: HTTPS://LOGIN.5PAISA.COM/LWP | FINOUX SOLUTION PVT. LTD.
TECHNOLOGY USED: Vue.js, API, HTML, CSS, JAVASCRIPT,Typescript PAYMENT GATEWAY, THIRD PART API
TEAM SIZE: 4
ROLE: Sr DEVELOPER
DESCRIPTION: A dynamic marketing project centered around share market investments, offering individuals the opportunity to allocate funds strategically. Implemented a comprehensive system allowing users to purchase SIP (Systematic Investment Plan) and mutual funds, while also providing the functionality to create personalized baskets and execute share purchases within the market

PROJECT- 4: HTTPS://GAANA.COM/ | FINOUX SOLUTION PVT. LTD.
TECHNOLOGY USED: Nuxt.js, API, HTML, CSS,Typescript, PAYMENT GATEWAY, JAVASCRIPT
TEAM SIZE:6
ROLE: SR. DEVELOPER
DESCRIPTION: Managed an innovative music project, offering users a diverse range of music genres to explore and listen to. Developed a robust search feature, enabling users to easily find their desired songs. Implemented a personalized playlist creation functionality, allowing users to curate their own customized lists by adding songs of their choice.

PROJECT-5: HTTPS://UDHD.JHARKHAND.GOV.IN/ |
TECHNOLOGY USED: VUE.JS, HTML, JAVASCRIPT, CSS, MYSQL
TEAM SIZE:3
ROLE: SR. DEVELOPER
DESCRIPTION: Oversaw a significant government project for the state of Jharkhand, involving various user roles and login functionalities. Developed a comprehensive system that allowed users to create profiles based on their designated roles and seamlessly apply for and approve

leaves based on assigned permissions. Implemented an efficient attendance tracking system to monitor the attendance of all employees, ensuring accuracy and accountability.
